

VAIBHAV AWARKAR

Backend Developer | Python • FastAPI • Django • REST APIs

+91 8719034526 • vaibhavawarkar@gmail.com • Indore, MP

PROFESSIONAL SUMMARY

Backend Developer with 3+ years of experience designing and building scalable, high-performance web applications. Strong expertise in Python (FastAPI, Django), RESTful API development, microservices architecture, MySQL, and role-based access control. Proven track record delivering pharma compliance platforms (QMS, DMS, LMS) in production environments. Working knowledge of React.js for frontend collaboration and basic familiarity with deployment workflows on AWS EC2. Comfortable in Agile/Scrum teams with a focus on clean, maintainable, and well-tested backend code.

TECHNICAL SKILLS

Backend	Python, FastAPI, Django, Django REST Framework, Core PHP, Laravel
Frontend	React.js (basic), JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Databases	MySQL, PostgreSQL, SQL, SQLAlchemy ORM, Alembic Migrations
API & Arch	RESTful APIs, Microservices, MVC Architecture, Third-Party API Integration, RBAC, JWT
Testing	pytest, unittest, PHPUnit, Postman
DevOps	Git/GitHub, AWS EC2 (basic deployment), cPanel, FileZilla, Postman
Methodology	Agile (Scrum), SDLC, Code Review, Technical Documentation

WORK EXPERIENCE

Backend Developer | Vidya GXP Pvt. Ltd., Indore

May 2024 – Present

- Architected and developed backend for pharma compliance platforms (QMS, LMS, DMS) using Python (FastAPI), serving 500+ enterprise users; collaborated with frontend team on React.js integration.
- Built 15+ RESTful APIs using FastAPI and Django REST Framework, integrated third-party APIs for external service communication.
- Designed scalable database schemas using SQLAlchemy ORM and optimized complex MySQL queries, reducing API response time by ~35%.
- Implemented role-based access control (RBAC) and approval workflow systems with JWT-based authentication and authorization.
- Developed modules including CAPA, Deviation Management, Document Control, Training Management, and Audit Reporting using Python-based microservice architecture.
- Integrated AI-based automation features to enhance workflow efficiency within compliance modules.
- Managed deployment and production server configurations on AWS EC2 including performance monitoring and security hardening.
- Followed Agile/Scrum methodology — sprint planning, daily standups, code reviews, and release management.

Jr. Backend Developer | Kavya Softech Pvt. Ltd., Indore

Aug 2022 – Apr 2024

- Built scalable backend modules for a high-traffic e-commerce platform using Laravel (PHP), improving system reliability.
- Implemented enterprise-wide RBAC ensuring secure access across all critical system functionalities — achieved zero security incidents post-implementation.

- 🔗 Integrated Twilio SMS API for automated notification services, and Razorpay / Stripe for secure online payment processing.
- 🔗 Optimized REST API calls and merged SMS functionality into application workflows, reducing integration overhead by 20%.

KEY PROJECTS

AGIO — Pharma Compliance Platform <https://agio.mydemosoftware.com/>

Tech Stack: Python, FastAPI, MySQL, SQLAlchemy, JWT, REST APIs | Frontend: React.js (basic)

- 🔗 Designed and built backend for pharma compliance system (QMS, DMS, LMS) using Python (FastAPI); basic React.js used for frontend screens.
- 🔗 Developed CAPA, Deviation, Document Control, and Training Management modules with role-based access and JWT auth.
- 🔗 Built AI-powered workflow automation and a dynamic multi-grid interface for real-time data representation.
- 🔗 Deployed on production server with performance optimization and full API integration testing.

Anuh Pharma — Compliance System <https://anuh2.vidyagxp.com/>

Tech Stack: Python, FastAPI, MySQL, REST APIs, RBAC, JWT | Frontend: React.js (basic)

- 🔗 Built complete Python backend for pharma QMS/DMS/LMS system with REST APIs and MySQL database.
- 🔗 Engineered unified audit report system for cross-module tracking and compliance analysis.
- 🔗 Implemented RBAC, secure authentication, AI-based automation features, and deployed on live production server.

EDUCATION

Master of Computer Application (MCA)

RGPV University, Bhopal

Bachelor of Computer Science (BCS)

DAVV University, Indore

Open to Backend / Full Stack roles — Python • FastAPI • Django • React.js
